My inspiration.....

I was inspired to draw a tiger because when the advertisements on television come on asking to sponsor a Tiger, I always feel very sorry for them. I also have always thought that tigers have very interesting eyes that show a story, so I highlighted them in my drawing.

My Inspiration.....

I drew a Amur leopard because they have always been one of the favourite animals and I can raise awareness about how they are endangered and people need to make changes to help.

My inspiration was a panda because when I was a child, I always liked pandas. When I found out that they were going extinct I wanted to show that in my drawing, and it is the reason for the skull and why I drew the panda.
